

Modifying An Existing User

From the **Users Tab**, select the user in question.

By selecting the user, you will be presented with a **summary of their profile**. To manage the user, navigate to the **settings page** by clicking the **cog icon in the top-right corner** of the page. This will open the settings for that user.

Here you can **edit the user's existing information**, including **authentication methods and basic profile details**.

Revision #2
